

Work Share Information

A great way to get more involved at the farm, and save money on the share price, is to sign up for a work share. This involves working at the farm for 3 hours per week for 25 weeks, working a total of 75 hours. In exchange, you get a reduced rate on a Full Share. We don't offer work shares for a half share. The discounted price for a Work Share is \$200. We are looking for 30 work shares for the 2012 season.

We ask work shares to assign themselves one regular day that they can consistently work each week. The choices are: Tuesday mornings, Wednesday mornings, Thursday evenings and Friday mornings. On Tuesdays and Fridays you can start between 7 a.m. and 9 a.m. These days will typically be devoted to harvesting. On Wednesdays you can also start between 7 a.m. and 9 a.m., and this crew will chiefly be transplanting or weeding. Thursday evenings are open to those who can't work during a weekday for whatever reason. We have no work slots available on Saturdays, Sundays, or Mondays.

We can be very flexible with peoples' schedules and understand that people go on vacations and such throughout the summer. We only ask that you let us know in advance when your chosen day will change, and that you please don't come unannounced looking to work. This is very important to the flow of our workdays.

We also understand that after a few weeks, some may find that this type of work isn't for them, or unexpected schedule changes make it hard to continue. We really want this experience to be stress-free. If you do feel you can't complete your year as a work share, you can pay the balance owed minus the hours you've already worked and remain as a full share.
